The Daylight Store**Plenty of Prosperity Here.**

In times of uncertainty every little straw is seized on as an index of general conditions, but amid all the talk that has been heard in recent weeks, at no time has doubt been expressed in regard to our national credit. On the contrary eminent financiers have put themselves on record as firmly of the belief that a return of a greater prosperity cannot be long deferred. In this connection it may be mentioned that besides the HUNDREDS OF MILLIONS of silver lying in the treasury vaults there are SEVEN HUNDRED MILLIONS of gold coin there, in addition to the two hundred millions or more on deposit elsewhere and, coupled with the great influx of gold from abroad, is sure to put us on better footing than ever before. We were never in better shape to serve you and serve you well than at present.

**An advertisement in the Times

We have always held that Teas should be sold at the same profit as other groceries. We don't believe in selling Tea at from forty to sixty per cent profit—in fact one of the most prominent Tea houses in Boston refused to sell us because we would not sign an agreement to sell for sixty cents a Tea that cost forty cents, a profit of fifty per cent. We prefer a lot of small profits to one big one. Neither do we believe in giving premiums with Tea that have to be paid for by the customers, usually at a large profit. We believe in giving the actual value on the spot. We have a very large line of Teas that were contracted for before the advance and we give you the benefit of this purchase.
